

Official launch of Architects for Peace. Free Public Forum about public space. Hamer Hall Undercroft. Saturday 20 November 2004 intentCITY

intentCITY - a free public forum to discuss the "political city" - the public space that affects us all - the built environment, ecology, citizens, particularly our involvement in war and what can be done to prevent it.

intentCITY is about cities, citizenship, collaboration and friendship at local and international levels. It is about boundaries, social and spatial, about the social realities of cities.
